Foodhub EPOS T2s

The next-generation EPOS system.

Experience high-performance with the Foodhub EPOS system. Featuring a powerful octa-core processor running at up to 2.2Ghz and a high-capacity 3GB RAM + 32GB ROM, Foodhub EPOS offers exceptional operational smoothness..

Efficient printing

The Foodhub EPOS adopts an 80mm thermal printer, achieving printing speeds of up to 250mm/s, ensuring seamless and efficient printing.

Reliable touch screen

Our industrial-grade touch screen can resist interference, even near high-power devices, ensuring a worry-free display interaction.

Enhanced visual experience

The Foodhub EPOS has a 15.6" 1920×1080 display with multitouch functionality.

Optional NFC & MSR card reader

Foodhub offers NFC card reading and magnetic stripe card reading capabilities for better performance.
